About Genesee Packaging

Since 1979, we at Genesee Packaging, Inc (GPI) have consistently provided our customers, no matter how large or small, with the highest quality packaging products and services at competitive prices.

This commitment to high standards has earned recognition through various corporate awards and nominations, both locally and nationally, including the Minority Supplier of the Year Award from the Michigan Minority Business Development Council and special awards from GM, Toyota and Nexteer (Delphi).

At Genesee Packaging our most important measure of success is customer satisfaction. Our company-wide policy is to place our customer's needs first. Over the years, Genesee Packaging has had excellent results in this endeavor through our ability to maintain a well trained and committed workforce.

Our Corrugated Division specializes in:

- Manufacture of corrugated materials for any application
- In-house design
- Pallet Pack systems
- Dividers, inserts and partitions

Our Packaging Division specializes in:

- Automotive contract packaging services
- Kitting, sequencing and light assembly of components and other industrial products
- Warehousing and ship direct distribution services
- Commodity management of various packaging materials

Our Government Division specializes in:

- GSA contract product and services
- RFID bar code labeling
- Defense and military specialized packaging services

We would appreciate the opportunity to show you how Genesee Packaging can meet all of your packaging needs.

**ISO 9001:2008
Certified**

Genesee Packaging has maintained Quality Certification to the ISO standard since 1998.

These quality policies have provided consistency and improved lean manufacturing processes, benefiting our customers, our employees, and our company.

Our Quality Statement:

We are committed to the following:
Delivery of the Right Product and/or service
~

Delivery at the Right time
~

Delivery at the Negotiated price

We believe in:
Preventive Action and Continuous Improvement

History

Genesee Packaging has been serving the diverse packaging and corrugated needs of the automotive industry and other industrial companies since being founded by Willie Artis and partner in 1979.

Ten years after the formation of the company, Artis brought his bride Veronica on board to help him run the operation. "We work very well together. We rely on each other and we've been doing this for so long, it's like second nature," he says.

The Artis' also rely on what they call their "world class" executive team. Chief Operating Officer, Jane Worthing, has been with the company since its inception. They describe Worthing as

extremely intelligent and dependable with a strong background and knowledge of the automotive industry. "She can really run the place," according to the Artis'.

The other members of the team are Brian Hayes, Chief Financial Officer, and Nick Scagnoli, Sales Manager. The Artis' express their gratitude for a dedicated workforce that continues to produce quality products year after year.

Customers

We know that success for Genesee Packaging depends primarily on satisfied customers. Because of our customer focus and relentless commitment to them, we are succeeding

today where others may have remains viable, our flexibility in meeting the ever changing needs of our customers enables us to react at a moment's notice.

Customers rely on us for rapid response and our ability to get the job done correctly. We deliver speed and high-quality performance in close partnership as needed.

We coordinate all of our activities and adjust our processes to meet customer needs, while still maintaining our focus on quality and our Quality Management System.

At Genesee Packaging, we understand our responsibilities and our customer's mission and take them seriously.

Our Quality Commitment

Quality excellence is the operating philosophy of Genesee Packaging. It is the foundation for the management of our business and the keystone to our ultimate goal of complete customer satisfaction.

We have established and maintained company-wide continuous improvement programs within our manufacturing and marketing activities, as well as our supplier base, to assure our products and services consistently meet the quality expectations of our customers.

To accomplish our quality goals and objectives, we have formed a partnership between our management and union employees. All employees are part of our quality system. As required, resources are allocated to carry out our strategies and to fulfill the long range needs of our customers through lean manufacturing techniques. The dependence on mass inspections and focus on each employee doing their job right the first time, our ongoing process improvements enable us to eliminate programs.

Our quality plans have been developed synergic with our suppliers to assure that our sources provide quality products that consistently conform to our customer specifications. We conduct periodic on-site assessments of our primary sources to verify that their quality programs and manufacturing activities meet our highest standards.

As with any quality conscious company, we monitor and continually improve our internal processes and systems to reduce error rates and achieve zero defects.
